Planting a Brighter Future!

### **Growing in the Garden Classes**

We are currently working on putting together our class schedule for 2013. Please let us know if there is a class you think we should offer as we are always open to new ideas and classes. To give us your ideas and comments, please contact Jim Richmond, at 269-969-0270 ext 116.

### **Continuing Education with the Calhoun County Master Gardener Association (CCMGA)**

Once certified as a Master Gardener, be sure to join the CCMGA to easily keep up with the annual education requirements for the Master Gardener Volunteer program. This group meets the first Tuesday of every month at the LAS Horticulture Training Center located at 103 Limit St. at 6pm. Each month there is a different speaker and lots of opportunities to meet other gardeners in the community.

### **MSU Extension Master Gardener Class**

**Class begins September 11th 2012, sign up now.**

- MSU Extension Master Gardener class flyer
